

CONTAINMENT TRAY

800.328.3332
satelliteindustries.com

“Durable trays that catch wash down.”

Built strong for continual use, these containment trays have a thickened base to hold their shape, last longer and fit all standard size restroom bases (44" x 48").

There is minimal extension beyond the base so rain water collection is kept to a minimum.

In addition, these trays fit neatly together for stacking and are the right size to fit into the restroom for easy transport.

Available in black and stackable up to 50 high for easy shipment. Call your Area Manager or Customer Service at 800-328-3332 and place your order today!
