

# MAXIM 3000

10 year warranty

“Made with 40% fewer parts and ultra-smooth walls, the Maxim 3000 costs less to service and repair.”

The revisited Maxim 3000 is a blow-molded toilet, with doublewalls and interlocking panels, creating a cabana with unmatched strength and durability. The fit and finish of the Maxim 3000 has also been improved by using 3 identical walls and a full base-to-cabana overlap, creating consistent alignment during assembly.

The ultra-smooth walls with interlocking corners, create a beautiful exterior and interior surface that is simple to clean and maintain. An added benefit to end-users and operators is the new vent pipe, with built-in coat/purse hanger and shelf, conveniences not found in most standard toilets. That's because a Maxim 3000 offers more than a standard toilet.
