

## Pro - 12

### Why?

Possibly the most flexible of the in-unit hand washing stations on the market, the Pro-12 provides ample reservoir space as well as the ability to place it in any of PolyPortables' standard size portable restrooms without removing the urinal.

- 12-gallon fresh water capacity.
- Hands free foot pump operation.
- Gray water drains directly into the portable restroom waste tank.
- Molded-in spigot makes for a vandal-d discouraging design.
- 1.8 gallon per minute foot pump.

### Why?

The low-cost Handistand will pay for itself in half the time and cost less to maintain than most other hand-sanitation stands. The Handistand is made from unbreakable molded polyethylene that can withstand the force of vandals and nature so you can keep renting it year after year. If faster profits and long-term benefits are what you want from a hand-sanitation stand, then Handistand will deliver.

### Why?

This compact in-unit handwash station has a water-conserving "fan spray" nozzle and still has a generous amount of fresh water for a high number of washes per fill. The foot pedal is positioned so users can operate the unit easily and get a thorough washing with limited pumps.

- Offer your customers fresh water hand washing.
- Narrow design helps it stay out of users' way and conserves interior space
- Custom-fitted for all Satellite standard models (excluding Maxim 3000 - see Mx3 handwash sink)
- Fits inside most standard portable restrooms currently on the market

## Handistand

## Slimmate

## Pro - 22

### Why?

This rugged internal hand wash station requires the removal of the portable restroom urinal, but gives the user 22-gallons of fresh water capacity. In situations requiring a fresh water flushing system, the Pro-22 serves as the unit of choice for both hand washing and as the fresh water reservoir for the flushing waste tank.

- 22-gallon fresh water capacity.
- Hands free foot pump operation.
- Gray water drains directly into the portable restroom waste tank.
- Molded-in spigot makes for a vandal-d discouraging design.
- 1.8 gallon per minute foot pump.

### Why?

#### Maxim 3000 Handwash

Stylish corner handwash with foot pump integrates seamlessly with the interior of the Maxim 3000. Extra-large basin is highly polished for easy cleaning and to keep it looking clean after many uses.

#### Maxim 3000 Full Forearm Handwash

The Maxim 3000 Full Forearm Handwash has a basin so large that the user can easily wash their forearm without the mess, and its 18" long basin is highly polished to keep it looking clean after many uses.
